## Introduction

Martyrdom is the most precious words of Islamic culture and it is the holy concepts of divine studies. Martyrdom, is human top integrity, when the human, sacrifices everything for his God where his soul is being fulfilled by God and rest in peace forever.

Martyrdom is a person's choice, a kind of death that human goes towards it willingly; it is not the natural death that happens all of a sudden. The importance and the value of martyr and martyrdom comes from the above concept.

After the end of the imposed war, many people believed the idea of martyrdom is over and many were disappointed that the achieved values of holy defence are forgotten, and many went into hermit, whereas in 90 decade the new generation who had not seen the Imam and the war, have created a saga that still to this day many cannot believe.

All the crimes that happened in Iraq and Syria by the Takfiri groups who also shared their terrorist activities on the internet , those crimes are very similar to those that happened in our country between the years of 1357 and 1359 which at the end had nothing but defeat

for our enemies.

Movements and services are not a like the defenders of the shrine; including the creation of a joint front between Shia and Sunni against ISIS, is as a result of the culture gained during the 8 years of comprehensive defence from this country and its people during the imposed war between Iraq and Iran in which it is created by Iranian, Islamic ethics and attitude which is the source of honour, independence, security and hardness for all the people and authorities in all the different classes.

The defence of the defenders of the Shrine, is the obedience to Amir Al-Momenin Ali A. when he bid: ((My Hassan and Hossin! Wherever you are be the enemy to oppressor and be a friend to oppressed.)) The story of inmate, Shrine defenders is the wonders of human history; because many people from Iran and other countries have left their young wives, children and comfortable lives in order to fight for God in a strange country and get fallen for their God and this is a marvel in history.

The great commander of all forces, holiness Ayatollah Khamenei have said: If it was not for the defenders of the Shrine, now we had to fight with the seditionist enemy members of Ahl-e-Bayt and the enemies of Shia people within the Iranian cities)).

Today's world is full of sedition and it is labelled with the explosion of information, in the time that geographical border has lost their old meaning due to cognition and basis evolution and the national authority

of any country within the cultural dimensions will show and appear, guarding from cultural values, requires realistic and strategic approach.

Thus any voice of freedom and any flag of freedom within this world is being attacked by the poisonous storms of the world union of violence.

In the meantime, the prophecy for those who think, about justice and freedom and those who believe in prophets goals. Therefore this culture of resistance and enlightenment must be protected against this countless assault.

**Brigadier General Doctor Qumars Heidary**  
**Commander of ground force army of Islamic republic of Iran**

## **Publisher's Speech**

Perhaps due to the way that the defenders of the Shrine are perceived and also the way it has been define, unconsciously it has become a complicated matter. Many do not even want to understand this matter. Movement out of curiosity; not to, mention going into the war zone and defending the Shrine.

But one thing is obvious, in the story of the defenders of the shrine, there are men and women who are different than ordinary people, there are special people, their activity cannot be measured by world's criteria and it is only God who knows how strong their characters are and how pure their souls are.

The advocacy of the defenders of the Shrine, it is not only about protecting the Shrine of Hazrat Zainab and Hazrat Roghayeh; but it is also about following the same path as Imam Hossin and protecting the sanctum of Islam, Ahle-e-Bayt and humanity.

This book is about the biography of one of the martyrs of the defenders of the shrine from the Islamic Republic of Iran Army, that whatever he gained during his life time experience wise and knowledge wise, and with all his attachments to this world, he sacrificed

them all for Islam and for what he believed in and therefore he faced the enemy with all his power. He stood in front of the enemy so that Iran and its fearless men to be immortal within the history.

Sooreh Sabz publications would like to take this opportunity and respectfully thank brigadier general doctor Qumars Heidary (the commander of pivotal army) for all of his support and for creating suitable path in order for the data and information to be gathered, also to thank brigadier general (Dr. Ahmad Reza Poordastan, Nozar Nemati, Naser Arasteh and Sayed Hesam Hashemi), Hajj of Islam ((Abbass Mohamad Hossiny, Shaban Ali Salehi Nasab and Reza Saadat)), second brigadier general (Shahin Taghi Khani, Mohammad Reza Fooladi, Davood Kazemi and Siroos Aman Olahi)), and special thanks to the holiness family of the martyr commanders and colleagues and special thanks to all the dear ones who helped in the different stages of gathering information and printing of this book.
